

Getting an Ultrasound

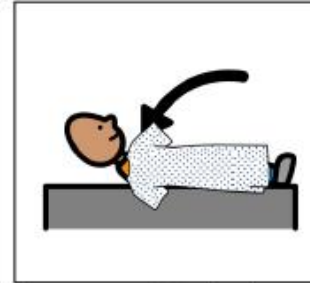

My doctor says that I need an ultrasound.

The ultrasound will take a picture of the inside of my body.

I may need to change into a gown for the ultrasound.

I may need to lie down on a table for the ultrasound.

The ultrasound will not hurt.

The technician will put gel on my body part that needs the ultrasound.

The gel may feel cold at first.

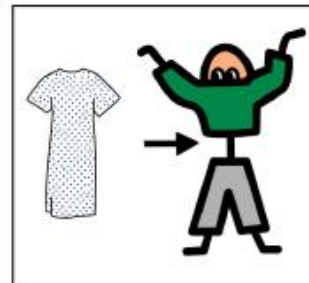

The technician will rub the gel around my body with a wand during the ultrasound.

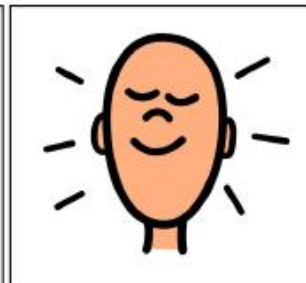

If I feel nervous, I can ask for a break.

When the ultrasound is over, I will wipe the gel off of my body.

When I finish, I can change back into my clothes.

I did it! I am so proud of myself!
