

Eating Gluten-Free at Restaurants

I have celiac disease.

That means I should not eat foods with gluten.

Even though I have celiac disease, I can still go out to eat!

Before Going Out to Eat

I can look for a restaurant that has gluten-free options.

I can use my computer or phone to look for restaurants.

I can use apps such as [Find Me Gluten Free](#) to find restaurants with gluten-free options.

Before Going Out to Eat

After I pick a restaurant, I can look at the menu online.

I can look for a gluten-free section.

I can also look for options that can be made gluten-free. For example, I can order a burger with no bun.

Before Going Out to Eat

If I am not sure if a food has gluten in it, I should ask a trusted adult.

After I pick a gluten-free option, I should write it down. I can write it on a piece of paper or in my phone.

This will help me remember what to order when I go to the restaurant.

Before Going Out to Eat

If I am not sure the restaurant will have gluten-free options I like, I can pack a bag with gluten-free foods to bring with me.

At the Restaurant

I should tell the staff at the restaurant that I am gluten-free.

I can ask for my food to be prepared away from foods with gluten.

At the Restaurant

If I did not look at the menu before I came, I can ask if the restaurant has a gluten-free menu.

I will order gluten-free food.

Eating out is fun!
